

2009 Driving Range Membership

Once again, the Club will be handling the Driving Range under the supervision of Mike Kaye and his staff. Golf balls will be available, each day, ½ hour prior to the course opening, and you will be able to practice up until ½ hour before dusk. The tee must be empty at this time, to give the staff enough daylight to clean the range. Any person that is a member of the range will be extended complimentary use of the driving range, prior to their round of golf, to any guest paying a greens fee.

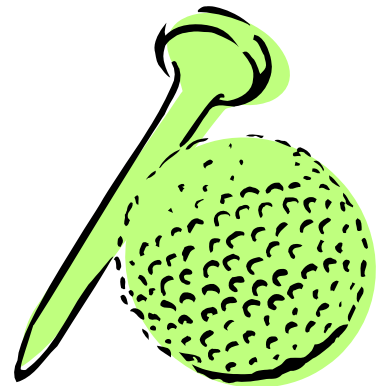

Below are the Options Available and Prices.
