## PRESIDENT'S MESSAGE

Greetings all,

The month of August was very busy at the Club.

On August 6<sup>th</sup>, Jake Brecht, one of the Jr. Golfers scored a hole in one on #13. This was his 1<sup>st</sup> hole in one. He made this great shot using a #3 rescue club. Way to go Jake!

Then 2 weeks later on the 20<sup>th</sup>, Sam Mason scored a hole in one. As many of you know Sam, it seemed like slow motion for the ball to finally drop in to that back left hole location on #8. This was Sam's 3<sup>rd</sup> hole in one on #8 and the 5<sup>th</sup> in his career.

Congratulations to Charlie Moss and his partner John Brinkley for capturing the Member Guest title this year. Charlie is one of our unsung heroes at the Club. He is constantly working hard trying to keep the plumbing in proper working order which is not an easy task.

Speaking of working hard, our Green's Superintendent, Howard Ellis, has had his hands full the past month. August was a very difficult month for turf management. The high heat and humidity especially at night is a breeding ground for turf diseases. Howard has spent many late evenings touring the course and protecting those areas that were under severe stress. Without Howard's knowledge and effort we could have had a disastrous summer for our turf. When you see Howard and his crew, they are out there so we can

enjoy one of the finest golf courses you'll ever want to play on a regular basis. Don't be afraid to say thanks.

The next time you are on the green at #12, if you look west you will see a mound of dirt at the top of the hill. That mound is the result of the new irrigation pond built in August. This pond adds another 2.5 million gallons of water to our reservoir system at Moon Brook.

A bit of trivia on watering the course; to water the Greens alone requires 80,000 gallons of water each time and to water the entire course, this requires 250,000 gallons of water.

Please send in your Proxy on the By-Law updates if you have not already done so.

Pete Scheira  
President  
Moon Brook Country Club

## Greens & Grounds

What a great summer for golf! There have been seemingly endless periods of sun and warm temperatures, with limited rainy times.

While the weather has been great for golfing, it has made course management a challenge. The maintenance of the golf course is performed every day in a consistent manner, so on a daily basis it should play similarly from one hole to the next. However, when you throw in variables like weather (i.e. high heat and high humidity, high heat and low humidity), it becomes very difficult to achieve consistency from one day to the next. As a general rule dry =faster, and humid=slower. [USGA.org](http://USGA.org) is a great website with many non-biased articles pertaining to course maintenance (click on course care tab).

We will be aerating tees and fairways as time and weather permit. The greens will have the sand injection performed on Monday, September 13.

The golf course has come through summer in pretty good shape, and we should be setting up for some good autumn conditions.

See you on the course,

Howard C. Ellis, *CGCS*
